HEIN-WERNER HYDRAULIC FLOOR JACKS

have these features:

Structural steel side members.
Low at 4" . . . Saddle high point 24½"
except Model "W".
Swivel saddles and wheels, except on
Model J and "W".
Steel hydraulic units, except on Model
G.
High point of frame—5½".
Saddles are 6¼" in diameter.
Safety valves and by-passes.
90° stroke on handle.
4" wheels, except rear wheels on
Models L and K.
Automatic oil level . . . Oil filler holes
are fool-proof.
Release valves can be locked and key
removed so that jack cannot be lower-
ed accidentally.
Hydraulic units can be easily re-
placed.
All jacks can be positioned with the
handle.
Finished in glistening Hein-Werner
Red.
